### WEDDING PHOTOGRAPHY COLLECTIONS - 2019-2021

Welcome and thank you for the opportunity to be part of your celebrations. Because every Wedding is different, with varying needs & wants, we have created simple Collections including the basics.

From there, we custom create packages to suit each individual couple.

Unlimited coverage from bride preparations through to serving of entree at reception.

Whilst I have won many awards – their relevance is only that each and every wedding is photographed to a standard that reflects your day and you. The way in which a wedding photographer becomes “part of your day” and can “read the play” is quintessential in the creation of beautiful images.

Complete the wedding story with a wall print (framing NOT included) that embodies all that made it “your” special day. Look outside the box and just “be” one with the landscape. This is timeless portraiture.
